

**Statement On Project Pinewood
By Andrew M Smith, Group Director Corporate Affairs
The Pinewood Studios Group**

21 October 2009

"This project is of national significance and of great benefit not only to our community and region but also to the UK and its creative industries. We feel the benefits of skills, training, jobs, affordable homes and growth presented by this innovative project demonstrate the very special circumstances to develop land in the Green Belt. We remain committed to the vision of this project and to developing and sustaining UK creative industries at Pinewood for the future. We will now review the details of SBDC's decision".
